

BMW SPECIALIST OPENS NEW GARAGE

Richard Lakey, 30, Proprietor of RL Motor Services is delighted to announce the opening of his new garage at Unit 18 Wolseley Business Park.

From an early age, Richard has been fascinated with engines and cars and was soon assisting his father, Roy Lakey, also a mechanic after school and weekends in his garage.

Having studied Motor Vehicles at School and attended College at South Devon Training, Richard spent his spare time, building kit cars, and knew that repairing, servicing and tuning cars was his future.

At 15 years old, a school leaver, Richard joined M Drake Motor Repairs a Citroen Specialist at St Judes and this is where he served his apprenticeship.

Having learnt the basic principals and more from his father, Richard's passion for repairing cars soon

moved to the more prestigious vehicles and it was time to move on 6 years later to Windsor Garage who specialised in Performance and Sports Cars.

In 2002 Richard was approached by Ocean BMW having heard what an enthusiastic mechanic Richard had become. The offer was too good to refuse and Richard became a Vehicle Technician at Ocean BMW, Plymouth.

4 and half years of employment later with Ocean and having attended many BMW Technical courses in Bracknell (BMW GB), Richard had made many friends and was sad to leave his colleagues in February 2006 to go it alone!

After 2 years being self employed working in a small garage Richard's dream came true when he opened his new premises at Wolseley Business Park on January 2nd 2008.

Richard agreed terms in December last year to take over Plym Garage with the new name RL Motor Services. His extensive client base which he already had has now grown

and he is delighted to welcome Plym Garage customers to his business.

His first member of staff, Gerry Smith a former Ocean Plymouth employee with over 35 years BMW experience, joins Richard on January 21st 2008.

Richard comments 'This is an opportunity I have been looking forward to for a long time and certainly has been my dream for many years. I would like to thank the tenants and staff at Wolseley Business Park for welcoming me to the Estate'.

RL Motor Services specialises in BMW / Mini and Performance Cars however with diagnostic fault equipment, MOT Repairs, Cam Belts and servicing, Richard is pleased to welcome any vehicle to his premises.

'The New Premises'

'Richard working on a more prestigious vehicle - an Aston Martin'
